Subject: Protect Children's Television!

Dear FCC Chairman Michael K. Powell:

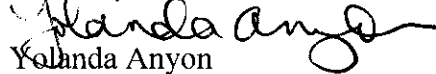

The FCC must consider the unique needs of children in its upcoming rulemaking on broadcast ownership rules.

Children consume almost five and a half hours of media per day. Research has shown that media, particularly television, play a unique and powerful role in children's development.

The FCC should consider how further relaxation of media ownership rules would impact children's programming. Deregulation may reduce competition, increase commercialism and result in less original programming for children.

Before making any regulatory changes to existing media ownership rules, the FCC must consider how children will be affected.

Sincerely,

Yolanda Anyon

Dear Sir:

Thank You for standing firm against the monopoly giants. History has taught us that power corrupts and absolute power corrupts absolutely! It is bad enough as it is now.

I support the work you are doing at the F.C.C.. The Communications Industry has needed a shake up for years... not just a few revisions here and there. I'm particularly interested in multiple ownership by one Corporation in many fields of this industry---i.e. newspaper, TV, Cable etc.

The loss of free speech by the tax paying Citizens is vulnerable to when few Corporations have a concentrated power to espouse only the side of a cause that it wants-- and not both sides.

I see it every day as I view the T.V. History shows how the public can be maneuvered with this approach.

Please do not expand the ownership ability of the Communications Industry to destroy a tool of this Democracy.

I have a very high regard for you Dad.

Respectfully

Dear Mr. Copps:

I read of your expressed opposition, re FCC Chairman Powell's intent for deregulation of corporate media cross-ownership, in the American Free Press, March 31 issue.

Mr. Copps, I applaud your courageous stand. You almost restore any faith I have in our otherwise self-serving public servants.

The runaway and avaricious tendencies of the mainstream media to control all information received by the public and to curtail the Constitutional operation of a free press, must be stopped or truly we can say that the 1st Amendment to the Constitution as nearly with the Constitution itself is no longer one of the benefits of a formerly free country.

I applaud you in your efforts, Mr. Copps. God bless you and give you the strength and the continuing courage to stick to your principles and carry on your lone fight.

You have my support in your endeavors, from my heart, thank you.

MR MICHAEL COPPS
COMMISSIONER
FEDERAL COMMUNICATIONS COMMISSION
445 12TH ST SW
WASHINGTON DC 20554

Dear Commissioner Copps:

On March 7 I wrote to you of my concern about the ownership of television networks by big conglomerates. This is a follow up to that letter.

Why are big conglomerates allowed to own all TV networks? What is the benefit to the public from large multinational corporations controlling the TV networks?

In the past GE was convicted of a conspiring with many big electrical equipment manufacturers to fix prices. It would be easy for the executives of GE, Vivendi Universal, Disney and News Corp. to get together and select our president or get anything else they want. Such a great concentration of power is a grave threat to our freedom.

The networks should be owned and operated by stand-alone corporations without conflicting interests.

Sincerely,

Edwin B. Stegman
